Venezuela says 'bienvenido' to Quiznos:

Venezuela has officially welcomed Quiznos at the recent opening of Quiznos' first-ever international mobile unit. The October 15 opening of the mobile trailer coincided with the start of the Venezuelan winter league baseball season. Fans and visitors to the Jose Bernado Perez Stadium in Valencia can now enjoy the tasty, toasty goodness of Quiznos.

Quiznos' Valencia-located mobile trailer is being operated by Carlos Eduardo Lopez, managing director for Sub Q Corporation, headquartered in Valencia. "Quiznos is one of the most exciting food concepts in the world, and we're very proud to offer Quiznos to the residents and visitors to Valencia," said Sr. Lopez. Sub Q Corporation currently operates 13 Quiznos units with 3 additional units scheduled to open in 2011.

Today, QSR International is a 114 unit multi-brand Franchisee and Master Franchise Quick Service restaurant developer which currently conducts business in 14 countries throughout Latin America and the Caribbean. QSR International owns and operates the Master Franchise for Quiznos restaurants in Latin America and the Caribbean where they currently have 80 licensed Quiznos restaurants operating, with an additional 16 units under development. Plus, QSR International has awarded and sold an additional 22 Quiznos franchises which, through development commitments, will open in the next few years.

In its efforts for continued expansion QSR International is currently looking for Area Developers in Argentina, Chile, Peru, Colombia and Trinidad and Tobago among others.
